
Youness Bennia

AI Builder & Banking Systems Specialist

Casablanca, Morocco | youness.bennia@sosglitch.com | +212 6 42 46 08 73

PROFILE

AI product builder and banking systems specialist. Co-founder of Kairn and builder of Roumy, with hands-on experience connecting agents to business workflows. Background in Amplitude, payments, trade finance, and enterprise delivery. Current engagement: Société Générale / SGABS.

AI PRODUCTS & CURRENT ENGAGEMENT

kairn | CO-FOUNDER · AI PLATFORM

Co-founding an agent infrastructure platform with per-user memory, reusable agent identities, controlled tools, streaming, and background execution. Node.js / TypeScript SDK; webhook skills; scheduled tasks; invocation records with tool calls, token usage, and duration. Banking is a key application.

kairn.si

roumy | BUILDER · HUMAN-AGENT COLLABORATION

Built a meeting experience where people bring their own agents. Through WebMCP, agents can follow room context, contribute, and present on a shared board.

roumy.io

dashypay | PRODUCT & CONVERSION

Built DashyPay's conversion layer. Earlier product leadership at Dashy covered a soft POS prototype, MVP delivery, business automation, and a Darija WhatsApp chatbot using Whisper and Llama 2. Supervised the AI team during training on Darija datasets.

dashypay.com

Société Générale | CURRENT ENGAGEMENT · ENTERPRISE AI

Working on a BMAD vertical project to bring agent capabilities to an in-house leasing application, with connectors to group applications and the core banking system.

Earlier blockchain work - Cipher AI - AI-assisted forensic analysis for Solana tokens. Paywithz.com - a blockchain payments project exploring simpler digital-asset payment experiences.

CORE CAPABILITIES

Applied AI - LLMs, prompt engineering, agent workflows, tool use, persistent context, and conversational AI.

Banking & integration - Amplitude, SWIFT, ISO 20022, trade finance, payment systems, APIs, Oracle, MySQL, and 4GL.

Product & delivery - Business analysis, prototyping, roadmaps, cross-functional delivery, Agile, and project governance.

PROFESSIONAL EXPERIENCE

Société Générale · SGABS | JUL 2024 - PRESENT

Senior CBS Project Manager · External consultant

CBS reference for NextGen mobile banking; Amplitude anomaly analysis, SWIFT / ISO 20022 and payment expertise; support for upgrades and patches. Current BMAD initiative: agents for internal leasing, connected to group apps and core banking.

SOSGLITCH Consulting | JAN 2024 - PRESENT

Independent consultant

Independent consulting practice focused on payment solutions, business-process digitalization, automation, and AI, alongside product-building work.

Dashy | MAR 2024 - NOV 2024

Product Lead

Defined the roadmap and supervised MVP delivery; developed an AI-assisted soft POS prototype and Darija WhatsApp chatbot using Whisper, Llama 2, and WhatsApp API. Supervised Darija model-training work and automated content / recruitment workflows.

BCP Technologies | DEC 2023 - JUN 2024

Senior Project Manager

Managed trade-finance rollouts for two African subsidiaries, from contracts and costing to deployment. Led BPMG mobile banking delivery with PCA; supported SWIFT / ISO 20022 migration and trained teams in documentary operations.

CGI · Stellantis | OCT 2022 - DEC 2023

PMO

Coordinated EMEA HR-system migration and consolidation after the PSA-FCA merger. Supervised production-server upgrades; managed budgets, schedules, delivery risks, and client steering committees with industrial and technical stakeholders.

Orange Business Services | JUN 2022 - SEP 2022

Project Coordinator · Business & IT

Coordinated IAM solution migrations to GATE4 and Orange Cloud. Planned migration phases and resource allocation; helped business owners redefine application roles.

Sopra Banking Software | JAN 2019 - JUN 2022

Senior R&D Consultant · Amplitude

Amplitude R&D reference for trade finance: SWIFT, transfers, letters of credit, and collections. Wrote specifications and technical analyses; customized databases and developed 4GL components, including an SG SWIFT MT101 duplicate-detection control.

Sitel Group · Lexmark | OCT 2014 - DEC 2018

Software Specialist / Team Leader

Software Specialist (2014-2017): enterprise liaison for secure managed-printing services. Team Leader (2017-2018): managed EMEA technical-support operations, team performance, and KPI reporting.
